Holding clamps allow well laid out and purpose-built storage of the wire baskets. The holding clamps can be arranged and changed to your own specification and are protected against torque as the little pin underneath the clamp plate is pressed into the wire base. At extra cost the catalog number can be etched on to the clamp plates to ensure ready identification.

Tutma klempleri tel taban üzerine istediğiniz spesifikasyonda değişip tanzim edilebilir. Tel taban üzerinde klemplerin altında bulunan plakadaki pin sayesinde darbeye karşı korunabilir. İlave ücret karşılığında hazır etiket olması amacıyla klemp plakasının üzerine katalog kod numaraları yazılabilir.
